=> Hack.lu 2013 Wrap-Up Day #1. 22/10/2013. «*Here is the first wrap-up of hack.lu 2013 edition (I'm wearing today the t-shirt from 2008, this is already my sixth edition). As usual, the event started with a bunch of workshops. I attended the one presented by Matt and Kacper Why about Scapy. I did not event a deep knowledge of this packet manipulation tool. Not only, you can create, capture or manipulate packets but it is using the Python interpreter and can be easily integrated into your tools. After an introduction, some protocols were reviewed: ICMP, ARP, DNS and HTTP. Very interesting workshop! (…).*»
